J.R. DID IT! No, not THAT J.R., but another one -- a Wabash County resident with an interesting sense of humor. According to Max Chamberlain, R. R. 1, Urbana, the "swimming pool" was installed while the Chamberlain family was on vacation last week, and greeted them on their return home.

Sitting in the front yard, the "pool" held no water, but was complete with diving board and ladder. Chamberlain got a measure of revenge, however. He called J.R. at 3 a.m. and asked him to come and fix a "leak" in his pool. ('the paper' photo)

Back when Max Chamberlain began serving with the Urbana Fire Department, there was only one truck.

"The first truck the department used was an old dry chemical truck. The first real fire truck was the 1947 Ford," Chamberlain says. "The men on the department customized the truck to fit the need. I can remember when it had about 30 buckets hanging off it so the men could fill the tanks," he smiles.

The same 1947 truck still graces the bay of the Urbana Fire Department garage.

A PROUD GREAT GRANDPARENT -- While talking to a nice lady yesterday it just "happened" to come out that she had a new great-granddaughter.

Altie Chamberlain tells me that her granddaughter, Rena, and husband, Jeff Warnock, became proud parents for the first time, ^{SUN} Sunday, August 23. Stephanie Ann arriving at 7 lbs., 2 ozs., is also a joy to grandparents, Max and Nancy Chamberlain.

From this program he has learned how diesel engines work and how to keep them running.

In his free time, Warnock enjoys playing football, working with 4-H steers, and showing steers throughout the year.

Little Boys Think Most About Cookies *6/20/74*

Cookies are the thing with six year old boys, that's for sure. At least where Todd Chamberlain is concerned.

Todd went along with his folks, the Max Chamberlains Wabash R.R. 1, late Thursday night to see what the tornado had done to Grandpa's (LeRoy Biehl) farm east of Urbana.

Little boys don't think about things like buildings exploding into splinters, windows crushing or birds dying as trees are topped and toppled by the wind.

Todd has his mind on the cookies as he commented, "I sure hope it didn't take all of Grandma's cookies!"

The Chamberlains were soon there and the cookie jar was still alright, and there were cookies in it — the same kind Grandma Biehl always has — chocolate chip!

When Grandma Biehl heard about Todd's worry, she laughed.

Friday she baked more cookies. After all, Todd and a lot more of her grandchildren and children and friends were outside taking care of things like sawing wood and picking up debris that the storm left behind.

A unique request

Lloyd Allen, Lagro, received a big surprise Thursday night during the demolition derby at the Wabash County 4-H Fair. Brian Chamberlain (left) painted a message on the roof of his entry asking to marry Allen's daughter Janet (right). Chamberlain's mother, Nancy, also was in the dark. Allen gave his approval immediately. "I've been trying to talk them into it (getting married)," he said. No wedding date has been set. Janet's mother, Wanda, and Brian's father, Max, were in on the little scheme.

"Dinner Out"
51st Wedding
Anniversary

Over the hills and over the snow it was good the old horse knew the way home because that left more time and more hands free to hold and love a little gal who was only 12 years old when she started dating you.

He wore long curls till he went to school at New Salem. He has attended church at Salem all of his life.

Almost all of Mom's life, she lived at the Garber home place and dad, where Ralph lives on 16. Since you have been married, you have lived on the Lagro road. Now in the last 51 years you have raised 5 kids and have enjoyed all of their mates and offsprings. But you only have one daughter who followed in your footsteps with 5 sweet little kids. Do you remember calling up the neighbor and asking if she had any everyday bloomers? Of course we knew you meant flowers. It might have been this same neighbor that came running down the road hollering "Cleo" your kids are on the roof.

Arden had a car he was proud of but seems that car caused a lot of mishaps; the time Eldon had to drive home from North Manchester when Arden was too sick to drive. All would have went well except when Lois Jane and Nancy fell into the eggs that were to be marketed. The car always had a famous smell after that. Max was driving that car one night and forgot to turn on his lights, the cop stopped him and wanted to see his license, no license and that ticket is still in his billfold today. It took a lot of trapping money to pay for that fine. And of course Arden always gave Nancy her bath.

When the teacher asked Eldon when his birthday was, he said, "On my mom and dad's anniversary." That seemed to be a good enough answer for him. He always seemed to know what a hammer and saw were used for. Some of the things he made was a little hand painted darkie girl, cut out of wood and

benches and drawers for tools. One of his specialties was a tent made out of feed sacks, put on his home made trailer. Then he and Max harnessed up the calves, mom packed lunch, the girls and boys hopped in for a ride to the woods and stayed all day picking raspberries. All of Eldon's know how on using a hammer was inherited by his two sons, Larry and Dennis, when they used the hammer and broke all the windows out of the chicken house. But they did learn the right way when they rebuilt grandma's swing after all ten granddaughters were at grandma's and grandpa's for their annual outing. The martin house is also a good example of using the hammer.

With Max it wasn't bad enough to have one brother let him get arrested, driving without a license, but it seems when they all went back to the creek, they had fun holding their breath under water to see who could stay under the longest. Then Lois Jane and Eldon thought they would help him and decided to hold his head under just a little longer, thank goodness they didn't let him drown. Then there was the time at Eldon's at a dinner, they put him on the horse but it didn't go fast enough so someone decided to help a little. The horse went alright but when it stopped, the rider kept right on going and fell on the top of his head. Eldon even left him sitting on the steps at the checkerboard Feed Company. They rode to work together at North Manchester and Eldon just forgot him. Nancy asked him the other day if anything funny ever happened to him and he said "Yea married Anna Lee!"

Thanksgiving about 1947 Lois Jane proved she could really cook. Getting the stove good and hot, she was going to have company for dinner. Not really, but mom had to go to the hospital because Grandma Garber fell and broke her hip. So when mom left, dinner was up to her and after all, her brother's girlfriend was going to be there. Now she really gets excited when I come

to her house for dinner. Lois Jane and Nancy really had a set up, when it was time to do the dishes, seems Nancy always had to go sit on the inside bathroom facilities, but that was payment for all the times Nancy had to go the outhouse after dark with Lois Jane because she needed a body guard. Mom never growled too much about the dishes but when two gals were jumping up and down yelling for the Urbana Speedkings that was almost too much. But I know Tami and Teresa can jump around all they want to.

When Elizabeth was in the hospital having a baby, Lois Jane took care of Bruce. But, oh, how it would have helped to have known all the kids names in Bruce's grade, so he could have put their name on the Valentines, instead of just every valentine saying, "From Bruce". Lois Jane might have been on television today if Eldon would have practiced a little more on the guitar.

Nancy must have really been a happy girl, especially about the eighth grade when Sharon Koch and Janet Campbell came home from school with Nancy. They giggled and giggled until Lois Jane finally came down stairs and slept on the kitchen floor and the boys sometimes even slept in the yard. Nancy almost got one of the trees, which the boys planted in the front yard, when she was learning how to drive.

When the granddaughters went on their annual outing it always kept grandpa busy building a house back the woods out of sticks and leaves. The boys even use to make their annual visit. Larry always stayed with grandpa to get some work done. Some of the things the grandchildren are responsible for are; Terry used red spray paint and did a good job on Brian, Tony filled the truck with sand and gas, Tami likes to bake cakes for 4-H but sometimes bakes the garbage her mom puts in the oven to hide until

supper, Diana climbed to the roof before she was a year old, Dennis just can't decide what time it is at night, fast time, slow time or my time, Donna, came up with red hair, we have a lot of white hair but red, that's Donna, Gary is the outdoor type, needs camping and hunting gear to go to the woods, Brian thought grandpa Chamberlain brought back goats instead of sheep after he had taken the sheep to get sheared, and Larry tried to calculate, through experiment, how many marbles would fit in his mouth.

The Chamberlain kids know just what their dad means when he picks them up at midnight after being out on the town. All five kids sound asleep on the floor, Max walks in and yells "OK kids up," not a tear and everyone is ready to go home. Todd's life ambition is to be Santa Claus' reindeer. So feed the deer, it may be Nancy's boy. Max C. sure did blow a lot of bubbles one day, the more he washed his mouth out, the more bubbles there were. Nancy bought bubble bath in a toy fishing rod and after all, the boys wanted to go fishing so why not just put the bubble bath in a Sprite bottle. Sprite is always good on a hot summer day.

Not everybody has an Aunt Vera. When it's time to go out on the town just tell Aunt Vera to bring her check book.. And who would let a couple of school kids take her brand new car and travel as far as Ohio. Around Christmas she really knows how to pick out ties.

Big Events in Dad's Life:

A rubber wheel tractor, it was nice after you had it but it sure was a worry, getting used to having it. Then in 1950 a new green plymouth, you even sent a picture of it to Texas. Dad's made a lot of hay, Ralph and him sure had the knack to load the wagon and some of the in-laws even helped pull the rope in. Butchering was a day to get ready for but I really don't think you miss that, but you probablaby do miss shocking corn and sitting down by a shock and shucking the ears out. Then how about the day before Christmas when we tried to build a fire to keep warm in the corn field, while Max was shelling corn. And then there was the day your bosses didn't call you for work, and after driving up to Vera's and over to Max's, you finally found them and then you were so disturbed that you just went home and was going to picket, "No Call No Work". It was a lovely day for a drive anyway. Another day you won't forget is the day your daughter's and your wife took you to town and got you all decked out in a pretty blue suit and blue shirt. You looked so spiffy and trim that it made you feel as young as the day you went around Max on the wind mill ladder to oil the squeaky windmill.

Big Events in Mom's Life:

The day the boys started to pour the wall for a new bathroom was the beginning of a pleasant event. Also the new cupboards built by Eldon and the donkey with the wagon that sits in the yard, you were so proud of that donkey that you even bought it a harness. The day the sidewalk was poured made a nice walk to the car. Grandma's made many cookies and pies, and read more story books to grandchildren than you can count. Through the years we have had few in the hospital; all are getting through school with flying

colors; some are in college; and some boys have served the country as well as dad. The only thing I can think of is if you were to raise 5 kids today, I believe you would have to learn to drive.

HAPPY ANNIVERSARY!
